

No More Missing Assets

GoCodes helps mid-sized teams track tools, equipment and assets without the complexity, extra costs, or 6-month implementation of enterprise systems.

GoCodes tracks any physical asset your business owns. From hand tools to heavy equipment to entire fleets.

Start tracking equipment in under 2 weeks, not months

Total solution: software + free QR code labels
 (Rugged tags sold at cost)

Easy-to-use mobile software in the field and office without apps

The Only Asset Tracking System That's Actually Easy to Use

How GoCodes Works

Tag. Scan. Track. GoCodes integrates real-time tracking with asset management.

Label your items

Apply included QR code labels to your inventory items. Takes minutes, not hours.

Scan & check in/out

Check out using any device (no app required) – auto time/GPS stamp.

Real-time tracking

See who has it, where it is, and when it's due back.
Add GPS/beacons as needed.

A Solution Built for How You Actually Work

Construction Companies
 Track tools across jobsites

Electrical and HVAC Contractors
 Right tools, right truck

Facilities Management
 Proactively manage preventive maintenance

Manufacturing and Industrial
 Easily automate your processes

Schools and Universities
 Finally know where the laptop carts are

Fleet and Transportation
 Monitor your fleet in real time

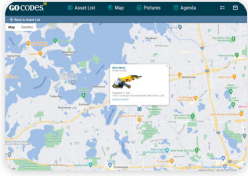

Asset Tracking Features That Matter

QR Code asset labels

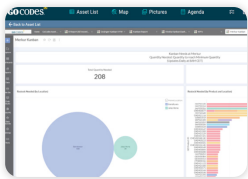

Water-resistant labels included free. Metal plates for heavy equipment, vinyl for tools, custom options available.

GPS location tracking

Automatically capture GPS coordinates on every scan. Optional GPS trackers for real-time equipment location.

Custom reports

Generate reports in seconds: missing equipment, utilization rates, depreciation, maintenance due, location history.

Mobile scanning

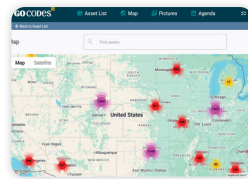

Instantly scan any barcode with your phone, no app required. Save time with batch scanning and audit scanning, too.

Check-in/check-out

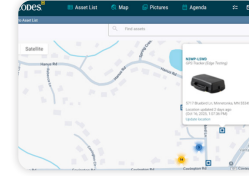

Assign equipment to crew members, job-sites, or projects. Full audit trail of who has what, when.

Multi-location support

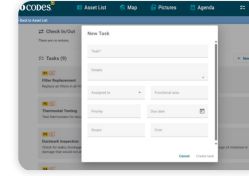

Manage assets across job sites, warehouses, service areas. See everything or filter by location.

Real-time dashboard

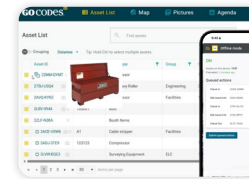

See where everything is, who has it, when it's due back. Cloud-based, access anywhere, updates live.

Maintenance scheduling

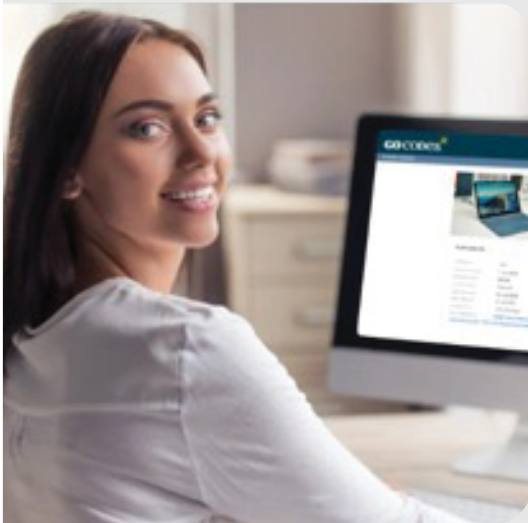

Set up preventive maintenance reminders. Track service history, maintenance costs, warranties.

Offline mode

Offline: you can scan the QR code to view or update asset info and check in/out. Online: your changes will be applied to your account database.

GoCodes is purpose-built for construction, trades, and industrial teams who need results, not complexity.

Unlimited Customer Service

Trusted by 1000+ businesses for the past 14 years

Our Customers Rate us 4.7 ★★★★★

Work Smart and Safe with GoCodes

Add-on GoCodes Trackers

Fully customized poly QR code labels come with your account. Upgrade to rugged tags, sold in a range of specs at cost. Purchase GPS Real Time trackers, Bluetooth Beacons and RFID tags, too.
